Getting Started at B-Fit Fitness

3 simple steps: sign up, sign your waiver, and unlock the gym with your phone.

Step 1: Sign up for your membership

- ☐ **Go to:** bfitbremen.fitnessgm.com/signup
- ☐ Create your account — enter your name, email, phone, address, and payment information. Use an email you check often; it links your membership to your door access.
- ☐ Choose the membership plan that fits you (single, family, etc.).
- ☐ **Sign the waiver:** Sign your membership waiver as part of sign-up.

⚠ **IMPORTANT: Your door access will not work until your waiver is signed. Do not skip this step.**

- ☐ Submit your registration and watch for a confirmation email.

Step 2: Download the Rhombus Key app

- ☐ On iPhone, open the App Store; on Android, open the Google Play Store.
- ☐ Search for "Rhombus Key" and install it — it's free.

Step 3: Request your Magic Key

- ☐ Open the Rhombus Key app.
- ☐ **Use your membership email:** Request a "Magic Key" using the SAME email address you used for your FitnessGM membership. This links your door access to your membership.
- ☐ Your Magic Key activates once your waiver is signed and your membership is active. If it doesn't work right away, that's almost always a missing waiver signature.

Step 4: Unlock the door with your phone

- ☐ When you arrive, open the Rhombus Key app with Bluetooth turned on.
- ☐ Tap to unlock, hold your phone near the door, and you're in. Enjoy your workout!

Troubleshooting

- ☐ Door access not working? First check that your waiver is signed and your membership is active — that's the #1 cause.
- ☐ Make sure the email on your Rhombus Key app matches the email on your FitnessGM membership.
- ☐ Turn Bluetooth on and allow the app location/Bluetooth permissions.
- ☐ Still stuck? Contact B-Fit Fitness support and we'll get you in.
